Assessment Info & Pricing

I offer two assessment options to help your organization identify challenges on the individual, relational, and system level. The assessment process also reveals potential pathways for healthy change. The HS Mindful Leadership|Mindful Growth (ML|MG) Assessment Series (in development) is designed to support growth along the [HS ML|MG Model](#), based on extensive scientific research on mindfulness and healthy change in individuals, relationships, and systems. As the ML|MG is in development, your organization may be eligible for a free assessment and report; [contact Human Systems](#) to learn more.

The second assessment option, the [HS Talking Circles](#), are a more hands-on assessment approach and can be used as an ongoing process to create psychological safety in your organization as well as an assessment to determine organizational challenges and pathways to change.
